144 Handkerchiefs.
Mourner. Michigan girls have sent company K 144 white handkerchiefs. Frank T. Doyle has been made corporal of company C. The floods in Camp Cotton have resulted in the government providing floors for tents of all enlisted men, leaving officers to buy their own.

The Michigan Central railway notified Col. Barlow, of the 31st, Friday, that if he could locate five of its employees in the line of duty, the five and weekly wages would be mailed to them because it is giving full pay to all its guardsmen employees with dependents and half pay to all others. The five are: C. A. Hoyt, W. B. Forster, E. J. Patton, Van Vynck and A. H. Norton, who is now a first lieutenant of company D.

BEST LIVER AND BOWEL LAXATIVE FOR FAMILY USE
"Cascarets" regulate women, men and children without injury.

Take when bilious, head-achy, for colds, bad breath, sour stomach.

CANDY CATHARTIC
10¢
WORK WHILE YOU SLEEP

Instead of nasty, harsh pills, salts, castor oil or dangerous cathartics, why don't you keep Cascarets handy in your home? Cascarets act on the liver and thirty feet of bowels so gently you don't realize you have taken a cathartic, but they act thoroughly and can be depended upon when a good liver and bowel cleansing is necessary—they move the bile and poison from the bowels without gripping and sweeten the stomach. You eat one or two at night like candy and you wake up feeling fine—the headache, biliousness, bad breath, coated tongue, sour stomach, constipation, or bad cold disappears. Mothers should give colds, sick, feverish or bilious children a whole Cascarets any time—they are harmless and safe for little folks—Advertisement.

GEN. CLEMENT REVIEWS TROOPS

Entire Pennsylvania Troops Pass in Review; More Artillery for Division.

On the level mesa at Camp Stewart, with the mountains for a background and the sun glistering from the bayonets of the infantry and the scabbards of the cavalry, Maj. Gen. Charles M. Clement reviewed the entire Pennsylvania division of 14,000 men Saturday morning at the first division review to be held on the border.

The spectacle was an impressive one. Infantry troops swung past the reviewing officers like veterans. The cavalry horses made a good appearance and the cavalrymen kept a good alignment in spite of the green mounts, and the artillery rumbled past in review with the numbers and gun tenders sitting their iron like regulars.

Gen. Clement Pleased.
As no previous announcement had been made of the review, few civilians witnessed the military spectacle, although a number of officers from the 1st and 2nd divisions rode out to Camp Stewart to see the review. Gen. Clement declared himself as being well pleased with the showing made by his men. Of the Pennsylvania division and praised the brigade commanders for the skillful way they handled their commands.

Two more artillery regiments are to be added to the Pennsylvania, according to the announcement made at division headquarters Saturday. The second Pennsylvania infantry is to be changed into an artillery command and the ninth infantry, which is coming from Mt. Gretna soon, will also be made an artillery regiment. It was announced. This will give the division three artillery regiments. Another regiment of infantry is expected to come from Mt. Gretna soon to take the place of the second infantry in the infantry brigade.

NO COMPLAINT ABOUT COFFEE
Soldiers Get Grade That Retails For 20c, Says Commissary Capt. Regan.

"The St. Louis branch of the National Coffee Roaster association is exceedingly worried regarding the 'low grade' of coffee Uncle Sam supplies his soldiers," observed Capt. James Regan, of the commissary department after reading the resolutions of the association protesting against alleged purchases of cheap coffee for the army, which have been forwarded to the secretary of war and all commissary depots. "It is true that we have bought coffee for 15 cents per pound, but the housewife, purchasing it in pound lots couldn't get that same coffee for less than 25 cents per pound and maybe more."

No Complaint From Troops.
Capt. Regan says there has been no complaint from any quarter regarding the coffee and adds: "The way army coffee is made would not suit the average man—it didn't tickle my palate when I was learning to like it. Army coffee is made weaker for the very simple reason that the army cups hold about twice as much as the regular cup. Give one of those big cups filled with strong coffee to a soldier three times a day and it will eventually put him out, because if a soldier doesn't eat everything he is given he usually is considered by his messmates as a subject for the hospital."

Consumes 142,000 Pounds Monthly.
In the big warren at the depot is stacked thousands of pounds of coffee, the El Paso depot being the supply point for every post and camp in the southwest.

More than 142,000 pounds of coffee is consumed each month by the forces in the El Paso depot's territory. A ton of the supply is purchased in El Paso from local coffee roasting companies which import the green berry and roast and pack it here.

CARRANCISTAS SMILE AT NEW LEGALISTA NEWSPAPER
"Pish," "Tush," "Piffle," "Piffle," Such, freely translated, were the comments of Carrancista officials in Juarez when the new revolutionist newspaper, "El Legalista," which made its debut Saturday morning, was mentioned to them.

Gen. Francisco Gonzales, commander of the border forces of Chihuahua, scanned the columns with apparent amusement, but declined to make any comment other than one of those above noted.

The first number of The Legalista contains a number of exhortations of Carrancista and thenceforth, the people of Mexico are urged to action by a quotation from Nelson at Trafalgar: "At their helmets, boys, with the idea that no more of us should be tolerated in ridiculing the country of the Carrancista regime."

The new paper contains signed articles by E. Magno Castellanos, Manuel Bonilla and J. Kaperowitz. The names of the editors are not given, but "will be published from time to time," it is promised.

SOLDIER ARRESTED AT SANTA FE YARDS; DESERTION CHARGE
Pvt. W. Murray, of the Seventh infantry, was arrested Friday afternoon in the Santa Fe railway yards by a special officer, and was later turned over to provost marshal Lieut. H. B. Lewis, charged with desertion. Murray was arrested when he alighted from a box car in civilian clothes. A search of the car revealed the uniform, which was also delivered to Lieut. Lewis. Murray, according to men in his company, had only three months to serve until he would be discharged from the army.

Military authorities are also making efforts to ascertain the identity of two militiamen who left their uniforms in a room at 307 West Overland street Friday afternoon, after changing to civilian clothes. The uniforms were found Saturday by the caretaker of the house, who notified the office of the provost marshal.

QUARANTINE IS URGED AT BORDER

Smallpox and Typhus Reported Raging at Zacatecas; Many Starving.

Unless a quarantine is established against the states of Zacatecas and Aguascalientes, there is danger that typhus and smallpox will be brought to El Paso by native refugees from those two states where these diseases are now raging, according to Americans who reached Juarez Friday from the interior.

Their report of the conditions in the interior was made to Gen. George Bell, and forwarded by him to Gen. Fred Funston at Fort Sam Houston. The American refugees say that conditions could not be worse in Zacatecas. They came from there and reported that hundreds of the residents of the city of Zacatecas were suffering from typhus and that no quarantine was being maintained against this state by other states and communities in central Mexico. Many are dying in the streets, and the hospitals are filled with typhus sufferers.

In addition to the suffering from typhus and smallpox, there is a shortage of food in central Mexico and many are starving. The Americans from the interior report that hundreds of people are leaving for the mountains in the hope of finding food and shelter and to get away from the epidemics in the cities. Relief is badly needed in these cities and a quarantine against the refugees from these states is urged at the border to prevent an epidemic.

MEXICAN MILITARY NO LONGER CONTROLS THE RAILROADS
Railroad lines in Mexico are no longer under the control of the military. This was announced Saturday in a message to Carranza, consul Andres Garcia. The military officers are instructed to use the train service only for handling troops and necessary supplies. The military officers have been warned by Gen. Carranza not to interfere with the transportation of supplies or merchandise.

The message also tells of the anniversary of the independence of Uruguay which was held at all government offices in Mexico City. The foreign consuls paid their respects to the minister from Uruguay and the government offices were closed for a half day.

Sleeps In Auto; Says "Home James" to Owner
A Michigan infantryman, apparently unable to find his way toward camp, used an automobile belonging to F. K. Brown for a bed Friday night, at Myrtle avenue and Octavia street, in spite of the fact that the back seat had been removed.

He was awakened by the officer, and immediately demanded why the chauffeur had not taken him home, as he had been ordered to do. The guardsman then walked off and did not offer to pay for his night's lodging.
